

# Wellsite Decommissioning

## Introduction

GR Production Services (GRPS) is a leading provider of operations, maintenance, project and advisory services to energy projects across Australia. We provide cost effective solutions bringing our extensive operations experience to every task.

With over 25 years of experience in the Australian energy industry GRPS have earned a reputation for delivering projects on time and on budget. We achieve this through collaborating with key stakeholders and understanding the problem before we create a solution. GRPS understand that end of life assets are a liability and need to be removed and remediated carefully and cost effectively. Having worked extensively for over 15 years on Coal Seam Gas (CSG) projects we understand environmental concern and care as well as effective landowner and native title relations.

We provide turnkey decommissioning management and execution services for both on and offshore fields and have vast experience ranging from conventional Oil and Gas (both on and offshore), CSG, Carbon Sequestration to Geothermal projects.

## Key Capabilities

- Stakeholder mapping and engagement
- Project planning and execution
- Subsurface plug and abandonment
- Surface facility decontamination removal and recycle or scrap
- Civil works and environment remediation
- Supply chain and subcontractor management

## Capacity and Manpower

As part of the GRES group of companies (ASX – GNG) GRPS directly employs more than 300 people, delivering operations and maintenance, projects and advisory services nationally with access to a workforce of over 1600 qualified personnel (GRES Group). Our existing project crews comprise highly motivated and well-trained engineers, project managers and technicians, fully supported with tools and equipment – offering a performance oriented and highly mobile workforce. We focus on providing cost effective high value resources, safely delivering the required services, so you can focus on the highest value activities and priorities with your business.

# Projects delivered with a production performance mindset.
